

CLAIMS:

What is claimed is:

1. Mobile Grave Excavator:

one of the primary benefits of the cemetery grave digger is that the machine has steerable hydraulic wheels which allow the apparatus to be driven easily into place in the cemetery.

2. Mobile Grave Excavator:

also has the ability to excavate close to objects, such as grave stones

3. Mobile Grave Excavator:

also has a hydraulic leveling device on all 4 wheels to insure the accuracy of excavating the earth

4. Mobile Grave Excavator:

also is self propelling

5. Mobile Grave Excavator:

also has a hydraulic braking system, to insure stability of the digger

6. Mobile Grave Excavator:

also has a hydraulic excavating assembly
